

The ParkWise Team Oversight Commission

City of Tucson Department of Transportation staff operate ParkWise and administer its programs. A 14-member citizens commission oversees ParkWise operations and provides policy recommendations to Tucson's Mayor and Council. The commission's monthly meetings are open to the public. For more information, call 791-5071.

Maximizes parking options

Improves streetscapes

City of Tucson

ParkWise Residential Parking Permit Program

"A Permit Program Would Be Great For Our Neighborhood"

Tucson's Residential Parking Program was started in 1983 and has since grown to include programs in more than 15 neighborhoods.

The Program helps to manage parking in residential areas where non-resident parking is impacting the ability of residents to park. The goal is to protect and improve the quality of life and character in the neighborhood by reducing the amount of overflow parking, discouraging cut-through traffic, ensuring adequate parking spaces for the citizens who live in the neighborhood, and developing revenues that can be used for reinvestment in the neighborhood.

Residential Parking Permit Programs also help:

- Reduce excessive noise
- Diminish litter problems
- Maintain parking for visitors
- Provide appropriate parking for businesses
- Stimulate economic development
- Improve overall accessibility and environment

Parker the ParkWise Owl says:
"Park Wise!"

Parker helps ParkWise educate children about safety in neighborhoods, and notifies adults about parking programs and regulations.

To be eligible for a Residential Parking Permit Program, it must first be determined that parking in your neighborhood is significantly impacted by motor vehicles owned by non-residents. At least 75% of the residents in each block proposed for the Program must sign a petition supporting the Program. Once these conditions have been met, ParkWise will install parking signs and residents may purchase parking permits. ParkWise Traffic Agents will enforce parking in the Program area. The Residential Parking Permit Program is self-supporting. Permit fees are based on full cost recovery. The area of the City in which neighborhoods are eligible for the Residential Parking Permit Program is bounded by Country Club Road, 22nd Street, Grande Avenue, and Grant Road.

The Residential Parking Permit Program makes sure there will be parking spaces on the street for neighborhood residents and their guests.

Some neighborhood streets without permit programs are often filled with vehicles owned by non-residents.

Permit Holders, Please Remember...

All permits are vehicle specific.

A permit cannot be transferred, sublet, or sold.

Permits are valid only for the street block for which they are purchased.

Permit holders are subject to all City of Tucson parking regulations, just as all citizens are.
